

Homework 1

Instructions: For this assignment, you will complete two questionnaires that assess ones moral values, the Moral Foundations Questionnaire and the Moral Motives Scale. Upload your answers to questions 3 and 4 to Canvas by Sunday at 11:59pm.

1. Download this file and follow the instructions to take the Moral Foundations Questionnaire and the Moral Motives Scale.
2. Calculate your scores with either this excel spreadsheet or this Google spreadsheet. If you use the Google spreadsheet, I recommend clicking file -> make a copy so that you are not using the main copy to calculate your scores.
3. The Moral Foundations Questionnaire
 - Paste your scores for each of the five moral foundations.
 - What foundations do you most strongly endorse? Are there any that you don't endorse at all?
 - Do you think that this is a good measurement of the moral foundations? Why or why not? You may want to look at your reading for the week to answer this question.
4. The Moral Motives Scale
 - Paste your scores for each of the four moral motives.
 - Which motives do you most strongly endorse? Are there any that you don't endorse at all?
 - Do you think that the Moral Foundations Questionnaire or the Moral Motives scale did a better job at representing your moral values? Make sure to justify your answer.
